

# WHAT TO EXPECT?

## ■ Data Preprocessing

Start working on the 'Absenteeism\_data.csv' file and take it to a usable state in a machine learning algorithm.

## ■ Machine Learning

Develop a model that will predict the probability of an individual being excessively absent from work. For our case study, this will be a logistic regression model. Store the work as a Python module that we will call 'absenteeism\_module' and will thus preserve it in a form suitable for further analysis.

## ■ Loading the 'absenteeism\_module'

Load the 'absenteeism\_module' and use its methods to obtain predictions.

## ■ Analyzing the predicted outputs in Tableau:

The visualizations we will obtain with this software will help us a great deal while looking for insights.

# DATA PREPROCESSING

## Cleaning the Reason for Absence

Reason for Absence	Date	Transportation Expense	Distance to Work	Age	Daily Work Ave
26	07/07/2015	289	36	33	239
0	14/07/2015	118	13	50	239
23	15/07/2015	179	51	38	239
7	16/07/2015	279	5	39	239
23	23/07/2015	289	36	33	239
23	10/07/2015	179	51	38	239
22	17/07/2015	361	52	28	239
23	24/07/2015	260	50	36	239
19	06/07/2015	155	12	34	239
22	13/07/2015	235	11	37	239

	Reason_1	Reason_2	Reason_3	Reason_4	Date	Tran

3	1	0	0	0	16/07/2015	
4	0	0	0	1	23/07/2015	

VARIOUS DISEASES	1	Certain infectious and parasitic diseases
	2	Neoplasms
	3	Diseases of the blood and blood-forming organs and certain disorders involving the immune mechanism
	4	Endocrine, nutritional and metabolic diseases
	5	Mental and behavioral disorders
	6	Diseases of the nervous system
	7	Diseases of the eye and adnexa
	8	Diseases of the ear and mastoid process
	9	Diseases of the circulatory system
	10	Diseases of the respiratory system
	11	Diseases of the digestive system
	12	Diseases of the skin and subcutaneous tissue
	13	Diseases of the musculoskeletal system and connective tissue
	14	Diseases of the genitourinary system
PREG NANT CY	15	Pregnancy, childbirth and the puerperium
	16	Certain conditions originating in the perinatal period
	17	Congenital malformations, deformations and chromosomal abnormalities
POISONING	18	Symptoms, signs and abnormal clinical and laboratory findings, not elsewhere classified
	19	Injury, poisoning and certain other consequences of external causes
	20	External causes of morbidity and mortality
	21	Factors influencing health status and contact with health services
LIGHT REASON	22	Patient follow-up
	23	Medical consultation
	24	Blood donation
	25	Laboratory examination
	26	Unjustified absence
	27	Physiotherapy
	28	Dental consultation
